

Big Picture Art

Biography Unveil Your Collective Creativity

Unite. Create. Amaze. Big Picture Art is a captivating team-building experience designed to spark collaboration and unveil the power of working together.

Challenge Accepted: Initially daunting, this activity transforms into a moment of collective pride as teams witness the magnificent artwork they've co-created.

Piece by Piece: Guided by a tailored design, teams work collectively to assemble a unique masterpiece from individual pieces. A quick acrylic painting workshop equips them with the tools they need to express their creativity.

Planning & Communication: Success hinges on effective planning and communication. Teams must discuss, delegate, and coordinate seamlessly within themselves and across groups to achieve "The Big Picture".

Lasting Legacy: Showcase your masterpiece! Each team has the option to frame and permanently display their artwork in the office, serving as a lasting reminder of team unity and accomplishment.

Flexible & Inclusive: This low-impact activity adapts to indoor or outdoor venues, cater to team-building groups or casual leisure settings.

Tailored Inspiration: During the initial consultation, we collaborate with you to design a unique artwork that reflects your company's mission, vision, or key concepts. This fosters engagement and reinforces buy-in for important initiatives.

Beyond Individual Brilliance: Big Picture Art transcends individual talent. It demands inter-team communication and coordination, uniting everyone towards a shared goal.

Join hands, unleash creativity, and unveil the power of collaboration with Big Picture Art!
