DJ TINKZ

Biography

Tinkz has had a passion for music and entertainment since her early childhood. She was inspired to be in the entertainment industry by her love of dance and music and she is driven by her determination to leave a strong legacy in the Entertainment Industry.

Her love also moved into radio and was sparked up by the way a radio DJ could paint pictures with their words and their passion for music.

Tinkz studied sound engineering and music production, gaining hands on experience with the equipment.

She learnt how to beat match and improve her craft at the RISE Academy and from there she began to appear across many youth platforms around the country being the first female resident DJ for the largest youth brand in South Africa, U-PARTY. DJing at these events taught Tinkz how to read and interact with different crowds and how to manage her timing and choosing specific genres of music for varied audiences. U-Party stages gave Tinkz the opportunity to learn directly from DJs such as DJ Kent and DJ Euphonik.

Tinkz then moved into the corporate event space performing on roadshows, launches, year end corporate events for brands like MTN, Super Dry, Nu Metro, Audi, Supre, Standard Bank to name a few.
