I’ve been working as a full-time international keynote motivational speaker the world over for the

last 18 years and my audiences vary from small executive leadership groups of 10 – 40 people all

the way up to 15 000 people at global kick-off events for top international brands. My success as a

speaker comes down to my authenticity and my story telling approach based on my own

experiences. My purpose in life is to inspire people to turn huge obstacles in to major opportunities
as that is exactly what I did with my blindness.
