Biography Elevate Your Event: Introducing the Living Champagne Wall Experience

Are you ready to take your event to new heights of luxury and elegance? Look no further than our Living Champagne Wall—an extraordinary addition that turns any gathering into a sensory delight.

What Is the Living Champagne Wall?

Interactive Delight: Our Living Champagne Wall isn't your typical bar setup. It's an impressive 2.5m x 2.5m structure adorned with lush green boxwood. But what truly sets it apart is its interactive nature. Picture this: your guests approach the wall, ring a bell, and—like magic—flutes of champagne appear from secret panels within the foliage. It's sophistication meets whimsy, creating an engaging and memorable experience.

Customization: We believe every event deserves a touch of individuality. That's why our Living Champagne Wall can be tailored to match your unique style and vibe. Want floral arrangements cascading down the sides? Done. Prefer balloon garlands or personalized signage? Consider it done. The result? A one-of-a-kind installation that captures the essence of your celebration.

Beyond Champagne

While champagne takes centre stage, our Living Champagne Wall is versatile. It can showcase a selection of other beverages too—whether it's sparkling water, mocktails, or a curated wine selection. So whether you're hosting a black-tie affair, a wedding, a corporate gala, or even a prom or bat mitzvah, everyone can partake in the bubbly

magic. Cheers to inclusivity!

Be the Talk of the Town

Our Living Champagne Wall combines elegance and interactivity, ensuring that your event is remembered as nothing short of extraordinary. From its stunning visual impact to the personalized touches, it's the kind of detail that leaves guests in awe.
