Biography

A Visual Symphony

Picture this: a dazzling performance where LED lights in red, green, or blue illuminate an extraordinary dress with time-coding abilities. Months ahead of her competitors, Cristina's performance is a spectacular show of lights—from twinkles to fiery bursts to displaying company names—all meticulously choreographed to her music. It's a must-see experience!

1. Arrivals | Cocktail | Pre-Dinner: Up to 60 Minutes

Lighting Design: Subtle, beautiful ambiance with sequences changing per song, creating a warm and welcoming atmosphere.

2. Show: Up to 15 Minutes (dispersed as per client's request)

Lighting Design: Dramatic and captivating. If clients request their own music and Cristina agrees to sing and/or play the electric violin to it, an additional lighting programming charge will apply.

3. Combo: Arrivals | Cocktail | Pre-Dinner & Show

Combine both options for an unforgettable experience.

An impressive LED screen can be added to accompany Cristina's performance, enhancing the visual impact and making the event truly spectacular.
